

*Chesapeake  
Bay Homes*™

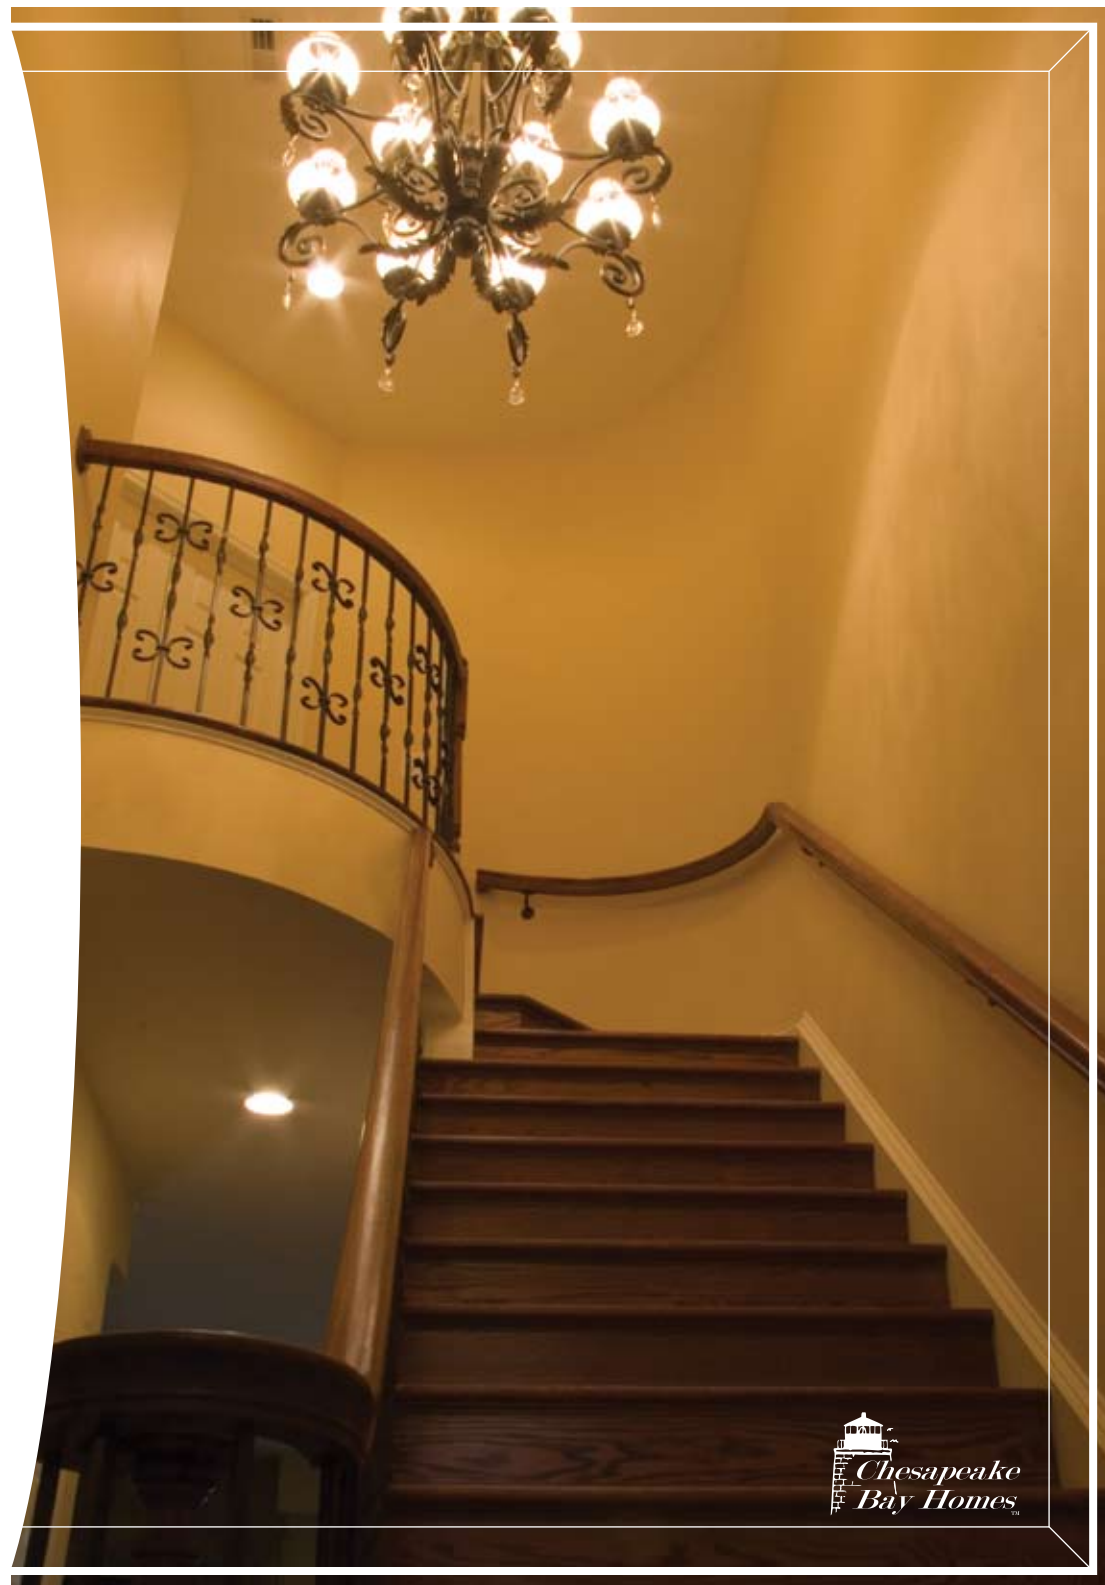

We will build your home as if it were our home  
– with special detail to every inch.

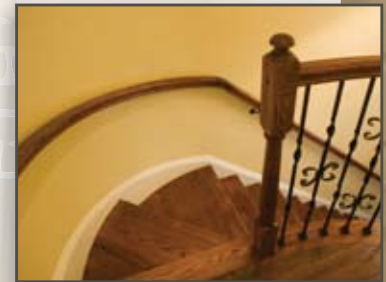

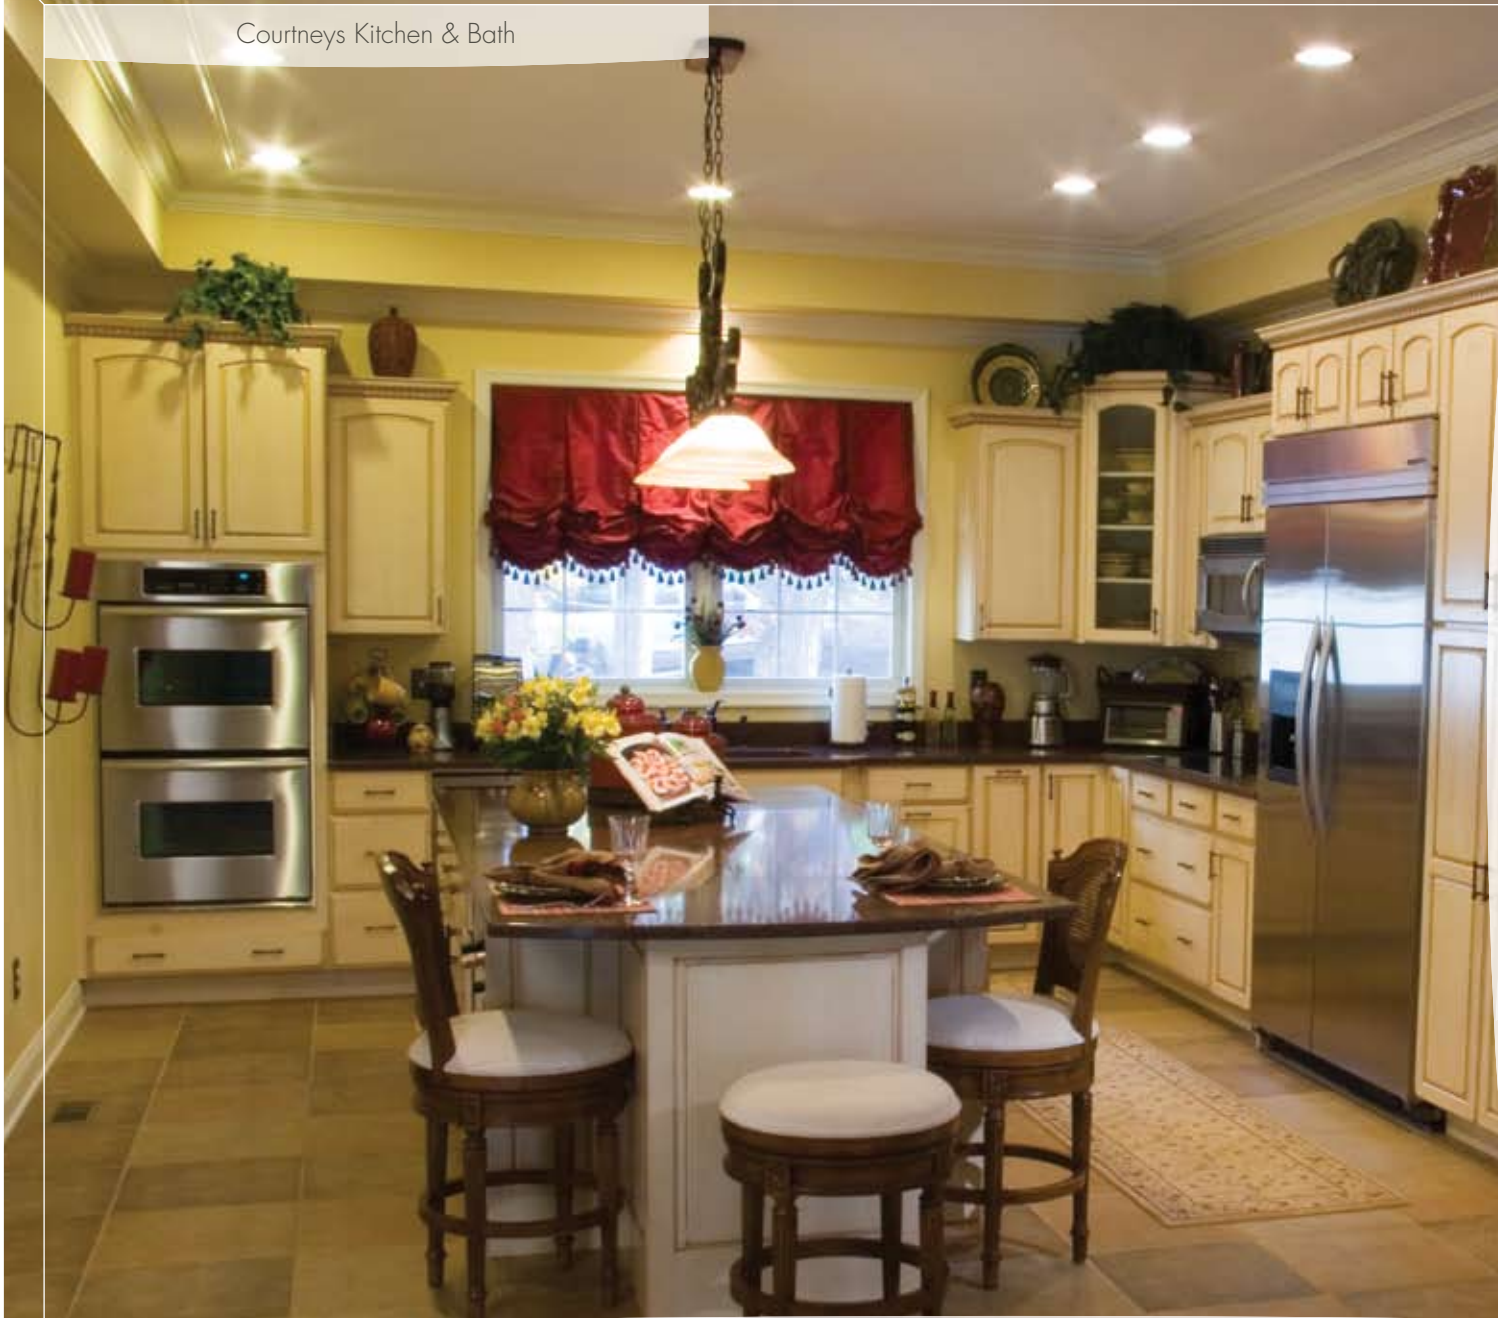

Chesapeake Bay Homes was founded in 2002 by Scott Chilton, whose experience includes over 25 years in the custom home building industry. Chesapeake Bay Homes offers quality residential custom homes that reflect your personality and style, with a specialty in waterfront building. Our goal is to provide you with a home that incorporates all of the small details that you desire, from floor to ceiling.

We will assist you with every facet of the custom home building process, including the selection of cabinetry, fixtures, lighting, decking, and faucets. Our quality suppliers include TrusJoist®, Delta®, Andersen®, Alcoa®, Yorktown Cabinets®, and Bruce®. Unlike prefabricated and production homes, you will have the opportunity to make the home uniquely yours.

Courtneys Kitchen & Bath

You can enjoy all of the comforts of your new custom built home in as little as four months, or as long as 16 months, based on the floor plan that you select. From beginning to end, we will make the process as smooth as possible. We will make the arrangements for you to meet with an architect who will design the home around your vision.

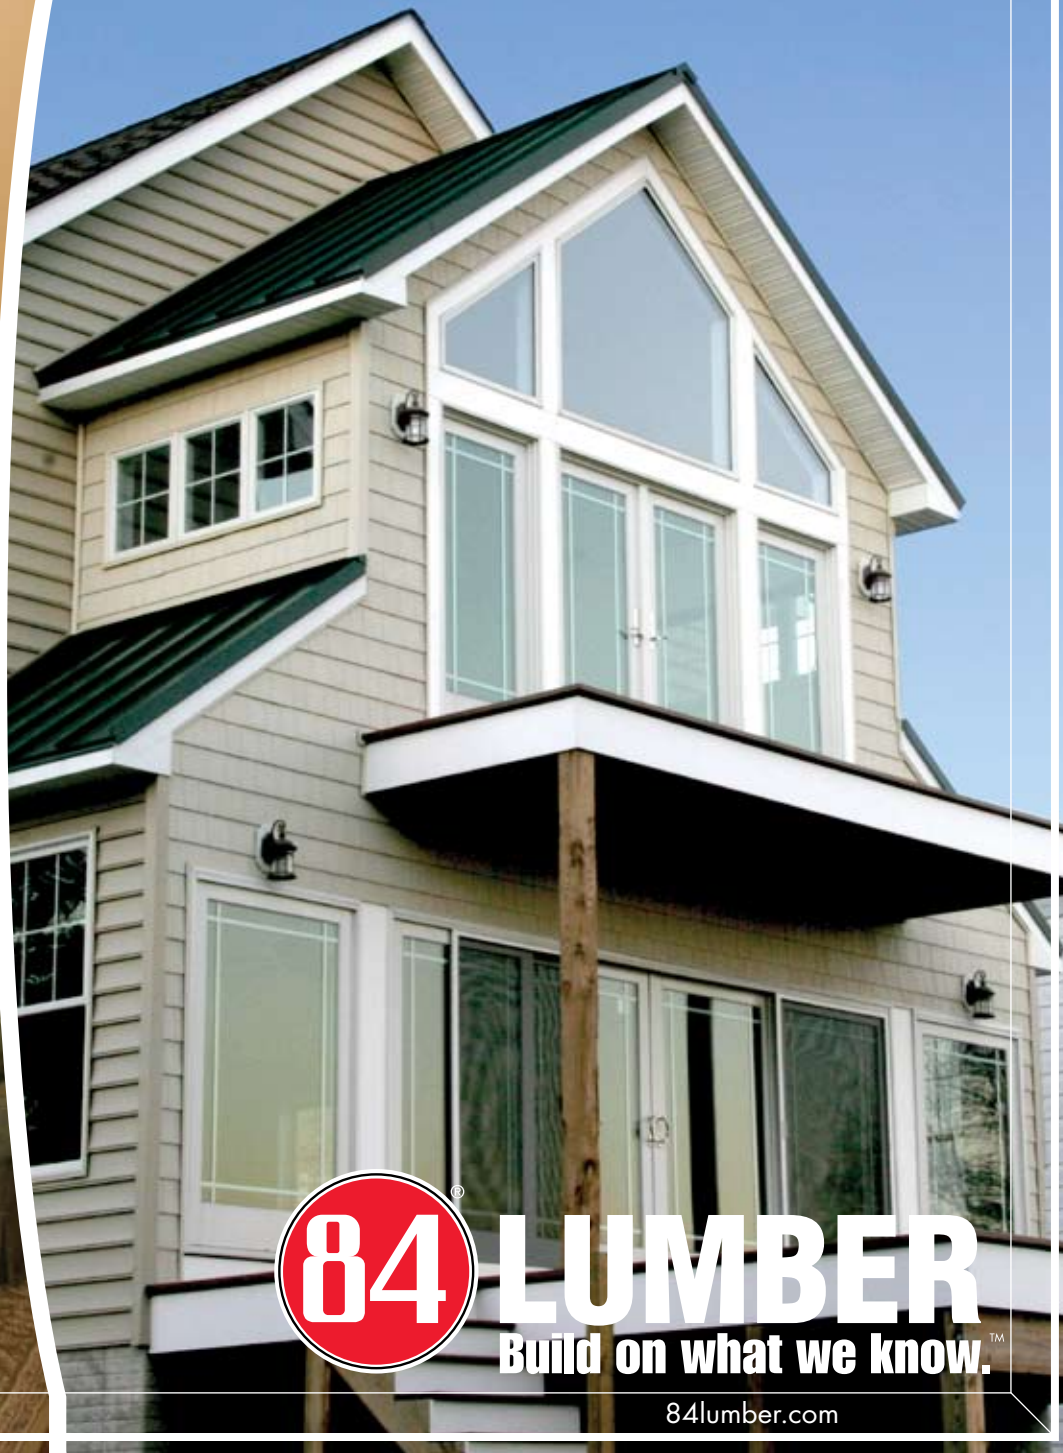

Tile, carpet and hardwood by CRS Flooring Service  
Fireplaces designed and installed by State Line Stone Veneer

Harford Insulation  
Unison Heating & Cooling

THERE'S NO OTHER CHOICE FOR THE PRO BUILDER.

**84** LUMBER  
Build on what we know.™
